

launchdarkly::ILogBackend

```
classDiagram
    class ILogBackend {
        <<abstract>>
    }
    class LogBackendWrapper {
    }
    LogBackendWrapper --|> ILogBackend
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'launchdarkly::ILogBackend'. Below it is a box labeled 'LogBackendWrapper'. A blue arrow points from the 'LogBackendWrapper' box up to the 'launchdarkly::ILogBackend' box, indicating that 'LogBackendWrapper' inherits from or implements 'launchdarkly::ILogBackend'.

LogBackendWrapper
