The diagram illustrates a file hierarchy. A top-level box (shaded gray) contains a path: /home/runner/work/cpp, followed by -sdk/cpp-sdks/libs/common, then /include/launchdarkly/bindings, and finally /c/memory_routines.h. Two blue arrows originate from the bottom of this box. The left arrow points to a box containing launchdarkly/bindings and /c/export.h. The right arrow points to a box containing stdbool.h.
