

ISerializedDataReader

```
graph BT; RedisDataSource[launchdarkly::server_side::integrations::RedisDataSource] --> ISerializedDataReader[ISerializedDataReader];
```

The diagram illustrates an inheritance relationship. A light gray box at the top is labeled 'ISerializedDataReader'. A dark gray box at the bottom is labeled 'launchdarkly::server\_side::integrations::RedisDataSource'. A blue arrow points from the top of the dark gray box to the bottom of the light gray box, indicating that RedisDataSource inherits from ISerializedDataReader.

launchdarkly::server  
\_side::integrations::  
RedisDataSource
