

```
include/launchdarkly  
/server_side/integrations  
/dynamodb/options.hpp
```

```
graph TD; A["include/launchdarkly  
/server_side/integrations  
/dynamodb/options.hpp"] --> B[optional]; A --> C[string];
```

The diagram illustrates the inclusion of external types in a C++ header file. A central box represents the header file `include/launchdarkly/server_side/integrations/dynamodb/options.hpp`. Two arrows point from this box to two separate boxes below it, labeled `optional` and `string`, indicating that these types are included or used within the header file.

`optional`

`string`
